### ISSUED BY THE INDIAN EMBASSY.

#### 1. INFORMATION TO STUDY MD / MBBS IN EUROPE.

There is a wrong information being spread in India by the agents that the students would be able to get Schengen Visa (applicable for Europe). The fact is that Georgia is NOT a part of Europe. In fact, Georgia is a splintered country of Russia and became independent in 1991. [Check this fact here!](#) When you study in Georgia, you may be promised by the agents that you would get a job as a medical practitioner in Europe. You must understand that the European Union has 28 different countries. Each of them speaks a different language. It is not possible to work in any other country in Europe unless the language proficiency is achieved. Hence, do not choose Georgia as your study destination on the wrong promises of work promises in Europe.

#### 2. INFORMATION REGARDING DURATION OF THE MD / MBBS IN GEORGIA.

The MD / MBBS in Europe is always a 6-year program including internship. Georgia follows the EU pattern of education and a minimum 360 credits are required which is possible in 6 years. Few of the universities in Georgia are wrongly promoting a 5-year program format which is just to show that the budget is lesser. The admission letters issued by the Universities are always for 6 years! Accordingly, the cost applicable would be for 6 years though initial promotions are with a 5-year program.

#### 3. LIVING COST WHILE INDIAN STUDENTS PURSUE MD / MBBS IN GEORGIA.

The Indian Embassy has clearly stated that the living cost in [Tbilisi](#), Georgia is around US\$ 400 per month. It works to around Rs. 27,000 per month and almost Rs. 3 Lacs per annum! Generally, the universities and their agents promote only the fees structure without much emphasis on the apartment and living cost. However, many Indian agents hide or misinform the living cost in Georgia. In reality, the cost per year to study MD / MBBS in Georgia in 'B' graded universities works to almost Rs. 6 Lacs per annum including tuition fees and living cost. The Indian students can study in A+ graded universities such as [Pirogov Russia NRM University](#) located in the center of Moscow with this kind of budget!

### ADVISORY ISSUED BY THE INDIAN EMBASSY.

#### 4. LOW PATIENTS FLOW IN GEORGIA.

The population of Georgia is only 3.7 Million! This is lesser than one-third of the population of Moscow or Mumbai! This leads to very small patients flow in the hospital. The private colleges have affiliations with hospitals of the size of the small clinics in India. Ultimately, the students have to give MCI screening test once they return. The results of MCI screening test from Georgia is extremely poor due to this reason. For getting the country wise results of MCI, you may contact us!

#### 5. HOSTEL / ACCOMMODATION:

Generally, the private colleges in Georgia may not have an independent hostel building within their campus. As per the advisory of the Indian embassy, TSMU (Tbilisi State Medical University) does not offer hostel facility. The students are advised to check this point on OSAC report on the crime and safety issue before deciding to study in Georgia. Accordingly, you may take your decision to stay in an apartment, in case the university hostel is not available within the campus.

On the hands, it is understood that the Government medical colleges provide accommodation to the international students within the campus area.
