

MBBS in Philippines

MBBS in Philippines is getting popular among Indian students who do not wish to study an additional language such as required in MCI recognized medical colleges or universities in [China](#) or European countries like [Russia](#). This is due to the fact that, Philippines is an English speaking country. More than 95% of the people speaks English language. MBBS in Philippines review also became popular because the medical seats in China get generally filled up by June end. The various universities in Philippines are now recognised by MCI. Hence, the Indian students have started going to University of Perpetual Help, Bicol Medical college, Angeles Medical University etc. is among one of the top medical universities in Philippines. MBBS Philippines India is also a good option. Philippines medical college fees would range anywhere between 11-18 lakh. The cheapest medical school in the Philippines would cost even lesser. Thus, even though the cost of medical school in the Philippines is less, the quality of education they offer is also very less compared to other MCI recognized medical colleges abroad.

The disadvantages of studying MBBS in Philippines are present. However, Studying MD / MBBS in Philippines has advantages such as good weather and low cost medical colleges for Indian students. Hence, it became a great option for students who want to pursue their [MBBS abroad](#). However, there is a catch which generally all the consultants avoid telling you. But we at DOCTOR BRIDGE ABROAD MBBS do not wish to hide these facts. The admission will not be directly in MD program. The quality of medical education in the Philippines is different for different medical universities Philippines. Philippines medical education process is not as easy as it seems. Moreover, MBBS Philippines fees is not much. MBBS in Philippines for Nepali students is also an option. MBBS in Ukraine fees would be more but the quality would be much higher too.

Note: MD degree is equivalent to Bachelor level. Please do not mix it with the PG in India which many education consultants in India would advise. Just taking admission to BS program does not entitle you to become a doctor. It is just an entry to Pre Medical program leading to BS!

DISADVANTAGES OF STUDYING MBBS IN PHILIPPINES.

Passing NMAT Exam before guaranteeing Medical Seat for MD / MBBS in Philippines.

First and the biggest problem with studying medicine in the Philippines for Indian students is that they are first put in Pre-medical program such as B.S (Psychology) or B.S (Biology). Further the students have to pass an exam namely NMAT to get the promotion to study medicine in the Philippines for internationals. The system followed by almost all the WHO approved medical colleges in the Philippines does not suit around 30% of the students and the consultants just do not say it clearly to the Indian students who look to study at the top MCI

approved medical colleges in the Philippines. Further, not every student who passed NMAT can get the seat in MD in the same medical college! Philippines MBBS syllabus is also much different compared to other countries. The requirements for medical school in Philippines is also different.

These students return back due to non-passing of the NMAT exam or for not getting through MD Philippines seat. Imagine the problem they would face back at home when they are suddenly told that you would not become a doctor! It is very much important to have stronger base at 12th level to ensure that you pass NMAT exam for pursuing MBBS or study MD in Philippines. We at DOCTOR BRIDGE ABROAD MBBS convey to you all on this public forum to ensure that you do not get misguided. On the other hand, we would ensure your applications would go through successfully for the MBBS admission in Philippines. However, we are not responsible for your decision to choose Philippines in spite of knowing these problems.

LONG DURATION FOR MD / MBBS IN PHILIPPINES PROGRAM.

Second important point hidden by the agents or overseas education consultants promoting MBBS in Philippines is the duration of the program. You must understand that the total duration of the program is not 5 years but 6.5 years which is the longest among all the options!

- Initial 18 months is for the Bachelor degree program leading to NMAT exam.
- 4 Years medical Program after passing NMAT exam.
- 1 Year internship which is mandatory as per MCI regulation.

DO NOT BE JUST LURED TO PHILIPPINES DUE TO USMLE CURRICULUM. GET YOUR FACTS RIGHT!

Thirdly, the MBBS colleges in Philippines program is promoted as US based format. It is partly true. The fact is only 22% of the students studying MBBS in Philippines actually pass USMLE -1 exam. Now passing the exam is not enough since it's a competitive exam. Student needs to score 260+ out of 322 in USMLE-1 while passing was only 206 marks last year. Passing marks depend on the percentile of the topper of USMLE-1). So do not get attracted by USA talks of the study abroad consultants who try to push to Philippines. It is advised that in case you wish to pursue medical program in USA for your PG, you must choose alternative program as described in MBBS in USA page.

VISA PROBLEM.

Finally, the Indian students face problems with the issuance of Visa to study medical in Philippines. The Indian students get the tourist Visa. On arriving in Philippines, the students depend on the agent and the college to transfer the tourist Visa (9A type) to the study Visa (9F Type).

There are few advantages but many disadvantages of studying MD / MBBS in Philippines. [ENQUIRE NOW](#)

ABOUT PHILIPPINES.

Right since the industrial revolution, Spain and then USA controlled the Philippines. Accordingly, English language is widely spoken after the native language. The country is made up of many islands. Manila and Cebu are large cities in Philippines. Philippines has a smaller population such as 98 Million. Students face the huge problem since the patient inflow in the hospitals is very low. There is a huge Philippines medical college list. The cost of medical education in Philippines is not very expensive.

There are many medical colleges in Philippines including University of Perpetual Help but the hospital sizes are like private medical colleges in India. The climate matches almost like Indian weather. There is a growing range of MBBS colleges in the Philippines. Studying in Philippines and more precisely, study MBBS in Philippines is a growing topic of discussion among the Indian students for top medical universities in Philippines. Students must be very careful in their selection to pursue Philippines MBBS at MCI approved medical universities in Philippines.

We do Online Seminars (webinar) frequently to guide the students towards a right career path. [REGISTER FOR THE ONLINE SEMINAR](#)
